Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A bank customer applying for a credit card.	Get my credit card application approved quickly and fairly.	I don't know whether I meet the bank's eligibility criteria, and the approval process takes time.	The bank checks many factors such as income, employment status, credit history, and financial records before making a decision.	Uncertain and anxious about whether my application will be approved.
